The HPC 80w Motion sensing Solar flood light is a compact high power Solar LED flood light design a motion sensor with Lithium battery technology.

This model is supplied with a 80w Philips SMD LED Module with a lumen output of 160lm/w.

Lighting parameters are based on 12.5 hours per night to operate 365 days per year with a 2 day reserve in Smart power 100% power once the sensor is activated for a period of 20 - 30 seconds dimming back to 35%

PIR motion sensor is will detect any movement within an 8 meter Radius with a detection zone of 60 degrees from the sensor which will span over a 35 - 40m² area Light distribution options on the modules are 30, 45, 60, 90 & 110 degrees or with an Asymmetrical lens option.

Battery requires 4 - 5 hours to replenish.

Our standard LED brand options are, Philips Lumileds or Cree SMD LEDs.
