

LED FLOOD - MODEL SFLEDFL100SMDLM

Our compact LED Flood light adopts a new 3rd generation LED Flood light heatsink, Ultra slim sleek design. LED Flood light reflector and heatsink integrated, Pure aluminum structure for heat dissipation. New processing technology of LED light fixtures ensuring performance and long service life. Professional optical design, lumen efficiency can be increased by 50%, More than 130lm/w. 3 or 5-year warranty available

Technical Specifications

Product Name:	Compact LED Flood
Model NO.:	SFLEDFL100SMDLM
Power:	100W
LED Chip	Phillips SMD LED
Lamp housing	aluminum
Power Factor:	PF>0.95
Input Voltage	85-265V AC / 24 VDC
THD:	THD<10%
IP Grade:	IP65
CRI:	Ra>80
Lumen:	100W>13000lm
Beam Angle:	110°
Color:	Warm white / nature white/ Cool White
Working Temp:	-40~60°C
Warranty	3 or 5 Years warranty (Life time is more than 50000hours)
Certification	IEC60598-1 / IEC 60598-2-5 / IEC62031

Light Distribution 110 Deg

Product Dimensions

Packing

PCS in a carton. Carton Size: 51*43*13cm. 5.5KG/CARTONS

Compact and Innovative Design

Reflector and heat sink integrated

Design innovation, effective protection

Protection grade reaches Ip65

Anti-Level-17 hurricane

Adjustable 270° Angle
